Course Number/Title: NUR 409: Leadership in Nursing
Credits: Three (3) credits – Theory – Online
Placement in Curriculum: RN students only; senior year OR with permission of faculty
Pre-requisites: NUR 214 and 300 level courses
Co-Requisites: None
Faculty: Ouida P. Dowd, MSN, RN, ACNS-BC, CCRN
Office: Dion 308 508–910–6444
Office hours: Monday 10 am–noon, Wednesday 12–2 pm, or by appointment
Online virtual office hours: by appointment
E-mail: ouida.dowd@umassd.edu

Add/Drop Deadline: The last day to add or drop courses is January 26, 2018.
Withdrawal date: The last day to withdraw from courses is April 11, 2018.

Course Overview:
Theories and concepts associated with leadership and organizational skills are discussed as they pertain to the role of the professional nurse within the health care environment. Knowledge and skills associated with functioning as a leader of care as well as a member of the health care team are identified, including strategies to enhance personal and professional effectiveness. Contemporary health care issues are discussed related to quality and patient safety and the role of the nurse as leader in effecting improved patient outcomes individually and collaboratively in teams. Course development was guided by the AACN Essentials of Baccalaureate Education for Professional Nursing Practice (2008).

Learning Outcomes:
Course-specific Outcomes:
The student:
1. Integrates standards of ethical, legal, and moral conduct in developing the professional nurse role.
2. Analyzes the social, political, and economic forces that drive innovation in the health care delivery system and shape health care policy.
3. Considers inter-professional leadership and advocacy that promotes communication and collaboration to achieve quality patient care outcomes.
4. Evaluates the standards, organizational structures, and legal and ethical parameters that guide professional nursing practice.
5. Appraises aggregate data from quality indicators and core measures to evaluate effectiveness of nursing care.
University Studies Learning Outcomes:

Cluster 5 requires students to apply the knowledge, skills and capacities gained throughout the UMD experience and to reflect on the interaction of these and their own professional and personal development.

Students are given the opportunity to integrate their learning and produce an original expression of knowledge or understanding. Students will also demonstrate mastery of both written and oral communication. Through engagement, students deepen their understanding and appreciation of their academic study, while also reflecting on the connections between their learning and the broader communities of which they are a part. These communities may be professional, scholarly, social, cultural, economic or political. These activities provide an opportunity for students to better understand their roles as members of these communities.

Upon completion of the capstone study, the learner will:

1. Synthesize the knowledge and skills gained within major courses, independently complete a research-based project or creative work and integrate the results of both in an open-ended project or experience (projects within the major are encouraged).
2. Integrate knowledge and principles from the field of study with those of the broader University Studies curriculum.
3. Demonstrate advanced information literacy skills by selecting, evaluating, integrating and documenting information gathered from multiple sources into discipline-specific writing.
4. Communicate effectively, both orally and in writing, the results of the project or experience.

Required textbook:

ISBN: 9780323185776

Strongly recommended books:

Books are available through the Campus store or any vendor of student’s choice.

Additional readings are posted on the course site.

Teaching Practices, Learning Methods, and Evaluation:

Students can expect to spend a minimum of 9 hours/week on course work. Teaching and learning are ongoing, dynamic processes. Core content will be presented to students using a variety of formats to promote learning:

− Narrated lecture presentations of key issues and topics
− Web links and videos
− Assigned readings, critical thinking exercises, and case study scenarios
− Discussion participation and reflection on knowledge, concepts, and topics
− Written discussion assignments and group collaboration work
− Development, implementation, and presentation of a health care leadership capstone project

Grading follows the University of Massachusetts Dartmouth grading system and the College of Nursing Academic grading policies (found in the online Student Handbooks). In accordance with the College of Nursing policy, the minimum passing grade for this course is 73%.
The student’s grade will be based on:

<table>

</table>

Please see the detailed overview of assignments further below and in the Assignment Guidelines folder on the MyCourses NUR 409 site. All written work in the College of Nursing is presented in American Psychological Association (APA) format. APA resources and tips for professional writing are posted on the course site. Students needing assistance with writing are advised to contact the Writing Center early. Students also have access to E-tutor services via MyCourses.

Responsibilities of the Student:

1. To demonstrate commitment to the exploration of ideas and issues related to course content.
2. To be self-directed and communicate learning needs, questions, or concerns.
3. To take accountability for reviewing course content and discussions on a regular basis, weekly or more often, throughout the semester.
4. To take responsibility to contact faculty when experiencing issues/concerns or difficulty related to course content and assignments.
5. To engage in the online class and actively participate in on-line discussions.
6. To complete all course assignments on the designated due date.
7. To treat peers and faculty with respect to promote a positive academic atmosphere, to communicate professionally and respectfully, and to use proper on-line etiquette when posting discussions.
8. To cite all references and sources used and to be mindful of plagiarism and academic dishonesty standards.
9. To submit assignments on time by midnight of each due date listed in the Class Schedule. Three (3) points per day will be deducted from late submissions unless the student communicates with faculty prior to the assignment due date and receives an extension approved by faculty.
10. Due to the nature of web courses, students are advised to keep copies of all their discussion postings as well as assignments. CITS archives courses at the end of each semester so course postings will not be available after the semester has ended.

Teaching-Learning Responsibilities of Faculty:

1. To guide the learner through assignments and discussions.
2. To construct assignments that foster critical thinking and support professional development.
3. To provide written guidelines for assessment of learner performance and timely feedback of discussions and assignments.
4. Faculty will be available for teleconference via virtual office hours weekly throughout the semester as indicated by designated times in the virtual office chat room or by appointment with students when necessary. Students may message faculty at any time or talk with faculty on line during office hours.
5. How to contact faculty:
   Course-related questions should be posted in the Course Q&A Discussion on the course site as this allows everyone in the class to benefit from your question. If you have a personal concern that you would like to keep private, please message faculty through course messages/emails not through the discussion board. Faculty check messages daily Monday through Friday so you can expect a reply within 24 hours except on weekends.

**Attendance:**

This course is a fully online course that includes module assignments, narrated lectures, web links and videos, and engaging in on-line discussions. Learning is maximized through sustained weekly online participation. Students are expected to complete assignments on time as indicated in the class schedule (located in the Course Information folder on the course site). Students are encouraged to attend scheduled online office hours or make appointments early on with the instructor for assistance.

**Academic Integrity and Ethical Standards:**

Academic dishonesty and plagiarism are serious academic offenses. Please review the Student Handbook for academic regulations and procedures for details and potential options open to the faculty, College of Nursing Dean, and university to address these infractions. The University and College of Nursing student handbook, policies and procedures, and academic policy on bullying can be found at: http://www.umassd.edu/studentaffairs/studenthandbook/ http://www.umassd.edu/media/umassdartmouth/collegeofnursing/NursingUndergradHandbook.pdf

This course uses the Safe Assign tool for assignment submissions to identify possible instances of plagiarism. Suspect assignments include those without references cited, with sections copied directly from sources without citing, or with writing styles not representative of college student work. Submitted assignments will be included in the UMass Dartmouth assignment database, which is used solely for detecting possible plagiarism during the grading process during current and future semesters.

Students are advised to use one of the free plagiarism checker tools available on the internet or the Safe Assign assignment practice module on the UMD MyCourses Support Hub for Students.

**Incomplete Policy:**

In accordance with University and College of Nursing policies, an incomplete may be given only in exceptional circumstances at the instructor's discretion. The student must be passing at the time of the request or be sufficiently close to passing. The student must communicate with faculty in writing via email as soon as possible prior to the last 3 weeks of the course.

**Students with Disabilities:**

In accordance with University policy, if you have a documented disability and require accommodations to obtain equal access in this course, please meet with the instructor at the beginning of the semester and provide the appropriate paperwork from the Center for Access and Success. The necessary paperwork is obtained when you bring proper documentation to the Center, which is located in Liberal Arts, Room 016; phone: 508-999-8711. Information is also available at: http://www.umassd.edu/dss/

Any student with a disability must contact faculty at the beginning of the semester if arrangements based on needs are desired.

**Title IX Statement**

The purpose of a university is to disseminate information, as well as to explore a universe of ideas, to encourage diverse perspectives and robust expression, and to foster the development of critical and analytical thinking skills. In many classes, including this one, students and faculty examine and analyze challenging and controversial topics. If a topic covered in this class triggers post-traumatic stress or other emotional distress, please discuss the matter with the professor or seek out confidential resources available from the Counseling Center, http://www.umassd.edu/counselling/, 508-999-8648 or - 8650, or the Victim Advocate in the Center for Women, Gender and Sexuality, http://www.umassd.edu/sexualviolence/, 508-910-4584. In an emergency contact the Department of Public Safety at 508-999-9191 24 hrs/day. UMass Dartmouth, following national guidance from the Office of Civil Rights, requires that faculty follow UMass Dartmouth policy as a “mandated reporter” of any disclosure of sexual harassment, abuse, and/or violence shared with the faculty member in person and/or via email. These disclosures include but are not limited to reports of sexual assault, relational abuse, relational/domestic violence, and stalking. While faculty are often able to
help students locate appropriate channels of assistance on campus, disclosure by the student to the faculty member requires that the faculty member inform the University’s Title IX Coordinator in the Office of Diversity, Equity and Inclusion at 508-999-8008 to help ensure that the student’s safety and welfare is being addressed, even if the student requests that the disclosure not be shared. For confidential counseling support and assistance, please go to http://www.umassd.edu/sexualviolence/

**COURSE TOPIC OUTLINE**

<table>
<thead>
<tr>
<th>Modules</th>
<th>Topics</th>
</tr>
</thead>
</table>
| Module I: Trends, Power and Influence (week 1)| Power and Influence  
Historical/sociopolitical health care trends influencing leadership  
Leadership challenges                                      |
| Module II: Change (week 2)                   | Change theories  
Role of the nurse leader in organizational change  
Advocating for change  
Strategies for implementing change |
| Module III: Leadership, Leadership Perspectives, and Leadership Issues (weeks 3-5) | Leadership Theories  
Leadership Characteristics and Styles  
Leader vs. Manager vs. Follower  
Organizational structure, vision, and strategic goals  
Defining your leadership style and finding your leadership passion  
Beginning to define who you are as a leader in nursing  
Ethical and legal aspects of nursing leadership  
Top issues in nursing |
| Module IV: Leadership Competencies (weeks 6-8) | Decision-making and Delegation  
Communicating with Clarity  
Workplace violence  
Conflict resolution  
Creating & sustaining teams  
Collaboration  
Building commitment and engagement |
| Module V: The Nurse as the Leader of Patient Safety and Quality (weeks 9-10) | Creating and sustaining a culture of safety  
Quality outcomes in health care  
Evaluating health care initiatives in the community  
Role of the nurse as a leader in creating & sustaining a culture of safety and quality outcomes  
Linking evidence-based practice & quality outcomes |
| Module VI: The Nurse as a Leader in Influencing the Health Care Environment (weeks 11-12) | Leading and influencing the health care environment  
Role of the nurse as a leader in influencing the health care environment  
Role of the nurse as a leader in creating & sustaining a culture of safety  
Advocating for change  
Promoting employee engagement  
Coaching to improve performance  
Managing effective meetings |
| Module VII: Career Management (weeks 13-14)   | Role transition  
Stress, time, and self-management  
Evaluating effectiveness of leadership |

**REFLECTIVE DISCUSSION ASSIGNMENTS**
Discussions are worth 50% of the student’s final course grade. Reflective discussion assignments assist students in achieving course outcomes 1, 2, 3, 4, and 5 and University Studies learning outcomes 5A2 and 5A3.

Students will reflect on and discuss contemporary topics and issues impacting health care delivery within organizational systems and the community. Issues include diverse health care systems, an aging population, inequalities in access to health care, ethics, conflict and workplace violence, team building, and economic and political changes in the United States health care system. Students will discuss the role of nurses as leaders in today’s health care environment. Various leadership concepts, nursing knowledge and principles, and knowledge learned from other university curriculum studies will be integrated and explored.

Discussions benefit all students so each student should expect to participate fully and contribute significantly to each discussion. Learning is maximized by the full participation of all students. This is an opportunity for students to share their knowledge and ideas and learn from each other.

Students are expected to be professional and respectful in all communications. Specific instructions for discussions are provided on the course site. Faculty will monitor discussions on a daily basis but will not respond to postings unless there is a need to redirect the discussion or clarify a concept.

The student will:
1. Remember that respect is the key principle of any communication.
2. Maintain confidentiality standards and HIPPA laws at all times. All persons discussed should remain anonymous.
3. Not share course discussions in the work place.
4. Post an initial discussion (500 words minimum) by 1159 pm on Thursday for each discussion week. Students should compose their initial posts in a document off line then copy and paste their discussion into the discussion board.
5. Respond substantively (150 words minimum) to the initial discussion post of at least one other student by 1159 pm on Saturday for each discussion week.
   a. Respond to discussion posts from other students by adding something significant or new to the discussion.
   b. Thoughtful, detailed postings reflect on the readings and may relate to clinical work experience.
   c. Raise questions you might have in regards to implications for nursing leadership in the current global healthcare environment.
   d. Identify a point that was not discussed or discuss a different perspective. If you disagree with the response, explain why.
   e. It is not acceptable to only respond “Good posting. I like your ideas.” OR to repeat what has already been said.

Discussion criteria:
1. Student demonstrates understanding of concepts presented in readings. Student reflects on pertinent issues in nursing leadership in health care. References are cited to support discussion.
2. Student fully engages with peers in discussion.
3. Citations and references are in APA format. A minimum of 2-3 scholarly references are required.

Grading criteria:
1. Initial discussions (500 words minimum) are posted by 1159 pm EST on Thursday each week. Student identifies assigned readings or scholarly resources for support of ideas. A minimum of 2-3 scholarly references (book chapters, peer-reviewed journal articles, appropriate web sites) are required. Citations are used to illustrate points and support student’s ideas and reflection.
2. Response to an initial discussion from at least one other student is posted by 1159 pm EST on Saturdays each week. Response is 150 words minimum.
3. Quality of Posting:
Thoughtful, detailed posting reflects on readings and relates to clinical work experience. Citations and references are used to effectively illustrate points and concepts and support student’s ideas and reflection. Ideas are well developed and reflect readings. Components of assignment are complete.

4. Engagement with Peers:
   Student fully engages peers in discussion. Discussion links concepts with assigned readings and clinical practice. Student offers suggestions, additional readings, or resources for support of ideas. Examples are used to support statements and to assist others to see how the topic connects to readings and practice. Student demonstrates understanding of concepts presented in readings and can answer group member questions with ease.

5. Grammar/Writing/APA Format:
   Postings are single-spaced paragraphs. Proper grammar and spelling is used. Communication is effective, professional, and respectful. Ideas and concepts are presented in a clear, concise, and logical manner. Citations and references are in correct APA format.

See the Discussion Grading Rubric below. Further information on discussions is available on the course site.

LEADERSHIP CAPSTONE PROJECT

Advancing Health Care through Nursing Leadership

The capstone project is worth 50% of the final course grade. This assignment assists students in achieving course outcomes 1, 2, 3, 4, and 5 and University Studies learning outcomes 5A1, 5A2, 5A3, and 5A4.

One of the most important nursing roles is to advocate for the health care outcomes of all persons and communities. Nurses actively guide, shape, and participate in health care policy and decision-making at all levels. Nurses must not be silent, unseen participants in health care decision-making. Nurse must have a strong voice and be active leaders in health care at all community levels (organizational, academic, professional, cultural, and local, state, national, and global levels).

Through engagement with the health care community and academic, professional, organizational, socio-political, or cultural communities, students gain a greater understanding of the value of engaging and interacting within their communities to solve problems and advocate for humanistic, safe quality care and equal access to care for all community members. Students will identify contemporary health care issues impacting health care outcomes for patient populations within the community. Students will bring together knowledge learned in this course and all their academic studies to synthesize and apply nursing leadership knowledge. Students will apply knowledge learned to advance health care policy to improve patient outcomes through nursing leadership within health care systems and their communities.

In this assignment, students identify a health care issue or policy that they want to change to improve health care or health care access for communities and populations. This health care issue may be in the student’s community, work organization or health care system, or at the state or national level. Possible issues include community health care issues, access to health care services, specific health care legislation, a unit or organizational policy or nursing practice issue, or an area where nurse leadership in community health service is needed.

Students will get faculty approval of project proposal PRIOR to starting their project. Students will plan and develop their capstone project with faculty guidance. Each student will plan AND implement their own leadership project to influence change in the health care environment. Students will reflect on the issues and needs of the community as they develop, implement, and evaluate their health care leadership capstone projects and engage with their health care communities to advocate for improved health care outcomes.

Students will share their project with the health care organization to advocate for change. The project product may be in any creative format the student choses. Past project products include: posters, brochures, door signs, fact sheets, information booklets, brief presentations, and letters to senators and congressmen.
Students will also **identify 1 or 2 specific nursing leadership characteristics or competencies** they want to develop for themselves this semester to become leaders in health care. Students will use these leadership characteristics to develop and implement their capstone project. Course content and textbook readings will guide students in identifying characteristics. Students will post periodic discussion updates on their project development, implementation, and evaluation progress throughout the semester. Students will discuss contemporary issues within the health care environment and the community during the capstone project process to advance health care policy through nursing leadership.

At the conclusion of the capstone project, students will evaluate and reflect on their project implementation and the outcomes. Students will reflect on their progress in completing their project and achieving their goal. Students will reflect on what they have learned about themselves, leadership, advocacy, and their strengths and weaknesses throughout their project. Students will reflect on the value of engaging within their communities during the capstone project process. Discussion of the capstone project and knowledge learned will be presented in two formats at the end of the semester: **a written APA paper and a video-recorded oral presentation**. Students will present a brief (5 minutes maximum) summary of their capstone project to the online class in the form of a video recording at the end of the semester.

**The entire Leadership Capstone Project is worth 50% of the total course grade and is composed of:**

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Implementation</td>
<td>20%</td>
</tr>
<tr>
<td>Paper</td>
<td>50%</td>
</tr>
<tr>
<td>Presentation</td>
<td>30%</td>
</tr>
</tbody>
</table>

**Grading Criteria for APA format capstone project paper:**

1. **Identification of proposed health care policy change leadership project:**  
   The student will submit a written proposal of the identified project for faculty approval. The proposal will include a brief description of the identified health care policy issue and its pertinence, the identified leadership concepts and characteristics the student will use to address the issue, and the expected outcome. (10%)

2. **Assessment:**  
   The student identifies a specific health care policy issue and assesses the change needed. Relevant reference sources are cited to support the planned project. (5%)

3. **Goal:**  
   The expected goal and outcomes of the project are identified. The impact on health care policy and the benefit to health care consumers is discussed. (5%)

4. **Resources:**  
   The student identifies resources to assist the implementation of the project. (10%)

5. **Action steps:**  
   Action steps to achieve the project goal are identified and developed. (10%)

6. **Communicating your health care policy leadership intervention:**  
   The intended audience for the project is identified and the method of communicating the project is described. (10%)

7. **Implementation and Monitoring Progress:**  
   The student discusses the plan for how the project will be implemented and methods to evaluate the project. (15%)

8. **Evaluation of Project Outcomes:**  
   The outcomes are discussed. How outcomes are evaluated is discussed. (10%)

9. **Conclusion:**  
   Summarize the key points of your discussion about your capstone project development, implementation, evaluation, and what you’ve learned about your leadership abilities. What implications for nursing practice have you identified from your project implementation? (5%)

10. **References:**  
    Citations and references are used to support discussion and are in APA format. A minimum of five (5) references are required. (10%)

11. **Grammar/Writing/APA Format:**

The paper is written in appropriate APA format with correct APA headings. Papers will be 6-8 pages in length, not including the title and reference pages. An abstract page is not needed.

12. Submitted on time or 3 points/day will be deducted for late papers.

**Grading Criteria for project video-recorded oral presentation:**

1. **Introduction of project and the need for change**
   Brief description of the identified health care policy issue and its pertinence
   (10%)

2. **Discussion and application of leadership competency**
   Brief description of the leadership concepts and characteristics the student used to address the issue
   (10%)

3. **Discussion of goal and resources to achieve goal**
   Brief description of the expected outcome or change in health care
   What resources did you need to achieve your goal?
   (20%)

4. **Development and implementation discussion**
   Brief discussion of your action steps, how you communicated and implemented your plan, and how you monitored/evaluated the change in health care and your project outcomes
   (40%)

5. **Conclusion/summary**
   (10%)

6. **Visual aids utilized (PowerPoints, poster, other creative media)**
   (10%)

7. Submitted on time or 3 points/day will be deducted for late papers.

See the **Leadership Capstone Project Grading Rubrics** below. Further information is available on the course site.
